Biotechnology at the MCI offers not only the acquisition of technical and scientific content, but also the opportunity to gain valuable experience abroad, to establish contacts with companies and to develop key competencies that are becoming increasingly important in an increasingly complex professional environment. Challenging course content, first-class lecturers and the solution of practice-relevant problems are the hallmarks of this course of study.

*Christopher Raggl, Graduate Bachelor Biotechnology & Food Engineering and Master Biotechnology*

**Key data of the survey**

Method: Full anonymous written survey using a standardized online questionnaire

Time frame: 2019/20

Response rate: 23.3%
